1. Who am I?

- 1985-1995: **Open source software**, commercial DOS products
- 1996: Licensed data compression software for ***Age of Empires 1***
- 1997: First 3D video game: ***Montezuma's Return***
- 2000's: Years in trenches: Microsoft, Valve, Intel, SpaceX.
Products I worked on: ***World Series Baseball, Age of Empires, Halo Wars 1, Portal 2, CS:GO, Dota 2, Starlink.***
- 2015: CTO of **Boss Fight Entertainment**, acquired by Netflix
- 2020's: Open source texture/image **compression** library software
- 2023: **Public UAP dataset/search engine**, at Sol Conference

Released the open source “ufo_data” repo
and <https://ufo-search.com/>

- https://github.com/richgel999/ufo_data
- **55,000+ records, in a simple standardized JSON textual format,**
along with the C/C++ software that creates it.
- Numerous French/English UAP event chronologies/collections, OpenAI translated (or “Damned” Fortean data)
- From USAF (Grudge/Sign/Blue Book), Frank Scully, George M. Eberhart, LeRoy Pea, Dr. Donald Johnson, Fred Keziah, Dr. Jacques Vallée, NICAP, Larry Hatch, Jérôme Beau, Godelieve Van Overmeire, Richard Dolan, and anonymous contributors. (**Nearly half from programmer Larry Hatch.**)
- **All data from each source kept in separate files for IP/copyright purposes.**

Types of Evidence, and How Security Classifications Impacts Each Type

- **Direct Evidence** - Restricted if involving classified info; access limited to cleared individuals.
- **Physical (Real) Evidence** - Classified items may be inaccessible or require clearance.
- **Documentary Evidence** - Classified documents may be redacted or restricted.
- **Scientific Evidence** - Restricted if based on classified technology or research.
- **Circumstantial Evidence** - May be inaccessible or redacted if related to classified operations.
- **Expert Witness Testimony** - Testimony limited by classification of underlying info.
- **Character Evidence** - Classified background info may be withheld, affecting assessment.
- **Hearsay Evidence** - Inadmissible or restricted if involving classified content.
- **Demonstrative Evidence** - Restricted if based on classified materials or technology.
- **Admissions and Declarations** - Classified content may be sealed or restricted.
- **Opinion Evidence** - Limited disclosure if based on classified information.
- **Corroborative Evidence** - Strength reduced if classified corroboration is inaccessible.
- **Digital Evidence** - Requires clearance if classified; may be restricted.
- **Secondary Evidence** - Classified originals lead to redacted or restricted secondary evidence.
- **Testimonial Evidence** - Restricted access if testimony involves classified info.
- **Presumptive Evidence** - Challenging if based on inaccessible classified data.
- **Corroborated Hearsay** - Weakened if classified corroboration is unavailable.
- **Collateral Evidence** - May be withheld or redacted if classified.
- **Cumulative Evidence** - Restricted if based on classified sources.
- **Uncorroborated Hearsay** - Likely inadmissible if related to classified info.
- **Inadmissible Evidence** - Classified, inadmissible evidence remains undisclosed.
- **Anecdotal Evidence** - Inaccessible if based on classified events.

Overall Impression of the 40's-50's (1)

- **True history of radar has been suppressed/classified.** Dr. Donald Menzel involved during WW2.
- **Stanton Friedman (physicist) was right:** “radar, rockets, nukes” connection. Also, Menzel was *absolutely* on the NSA’s payroll.
- **Dr. James E. McDonald (atmospheric physicist) was right:** New “1947 Wave” corroborative data found via freshly digitized public database analysis, USAF’s own 1949 memo.
- **Summer 1947-1950's: All hell breaks loose. Huge UAP related events witnessed across nearly the entire US, Canada/Mexico. Vatican involved in “containment”. (New info found: Cardinal Spellman met Truman, knew McIntyre. See Majestic docs.)**

Overall Impression of the 40's-50's (2)

- Summer 1947: Local NM newspapers: **Strange activity reported near White Sands, NM. Metals reportedly fell.**
- Late 40's/50's: **Cat and mouse game between pro vs. anti-disclosure forces. (Ongoing today. Disinfo op/info suppression continues.)**
- A “**containment**” strategy used to suppress newspaper stories/photos and spread hoaxes. Nevertheless, much leaked from scientists, USAF, Naval Intel etc. **Containment weakening.**
- UAP's were both **intimidation** (6/1947, 3/1950 Farmington, 7/1952 DC, etc. - see **Dr. Brandenburg**) and also a kind of **intervention** (2/1954 Edwards AFB), *warning us about abusing nuclear tech and poisoning the planet with h-bomb testing.* Many warnings in encounters.
- **Project Sign/Grudge/Blue Book's records are non-sensical, contradictory, silly. (20 ft diameter shiny metal objects not “birds”).**

Timeline of Events: WW2-Now (Not to Scale)

	WW2: Secret Radar Moon Bounce, Menzel involved, a-bombs.	1946: First photo from space.	Summer 1947: Hell breaks loose.	1950: Farmington, Univ. of Denver	Late 1953: Unpublished/private Frank Scully informant notes:	Early 1954: Frank Edwards announces saucer captured. Many Edwards AFB saucer/occupant rumors in various private/unpublished archives. Gerald Light (BSRA) Edwards visit. Ex-Naval Intel notes. Edwards AFB locked down.	2010: NH State Rep. Henry W. McElroy: Eisenhower briefed and met with NHI. Info likely from ex-intel officer with an expired NDA (Oscar Wayne Wolff aka "Agent Kewper"-LMH/Dolan interview.)	2024 – Controlled Disclosure.
BSRA org founded by Layne.	NHI retrievals & radar photos from NHI's.	BSRA warnings, Roswell, censored photos, Maury Isl.	Large UAP wave.	Aztec lecture, AFOSI-Koehler interrogati on tape, Scully book on 3 crashes with NHI's	Saucer/NHI at Edwards AFB, US Gov. had secret meetings with US corps. over situation			You are Here.

Key resource: newspapers.com

- Quoted phrases search engine hits:
 - “flying saucer” (6/2024): 708,415 matches
 - Now on 7/20/2024: 741,842 (!)
 - “unidentified flying object” (6/2024): 147,724 matches (!)
 - “flying disc” (6/2024): 84,877 matches
 - “flying disk” (6/2024): 16,769 matches
 - “UFO sighting” (7/20/2024): 113,332
 - “UFO report” (7/20/2024): 27,443
- Total: ~1,131,986 hits! ***Unmissable database signal and increasing.***
- Doesn’t include the common “UFO” acronym: newspapers.com doesn’t like tiny acronyms (too many unrelated hits).
- **The local newspapers couldn’t be reliably censored.**

Summer of 1947 “Containment” of “mass sightings”: Vatican involvement (Maj. Docs)

15. At the request of Panel member Cardinal Francis Spellman met with the President to discuss the containment within the Catholic Church and its hierarchy of religious speculation if mass sightings occur. Such containment was successful during the 1947 sightings when Cardinal Spellman met with the Secretary of War on 29 June. The President has been briefed on Defense Plan 4P, which was written in part by the Panel member.

Notes: Pencil marks are present in the original Majestic document. See
https://majesticdocuments.com/pdf/mj12_fifthannualreport.pdf

Newspaper clipping potential confirmation of Vatican involvement

- **June 29, 1947:** President Truman and Cardinal Francis Spellman accept honorary diploma in person
- See *The Nebraska Register*, Sun., Jun. 29, 1947, Page 4:
 - <https://www.newspapers.com/article/the-nebraska-register-truman-cardinal-f/140431824/>
- ~5 days after Arnold formation sighting on June 24, while nation being overflowed by UAP's
- Another clipping: Spellman knew Bishop McIntyre (of Edwards AFB 4/1954 fame).
- After WW2 US military and the US Catholic hierarchy were very tight (many newspapers articles, Vatican visits)

2. Project Sign/Grudge/Blue Book Records

Stills from movie *Unidentified Flying Objects: The True Story of Flying Saucers* (1956)

Project Sign Conf. Room, 1947-1948

See <https://web.archive.org/web/20051126044133/http://rr0.org/Sign.html>

CIC (Counter-Intelligence Corps) was Active During the Summer of 1947 Events

- On 7/7/1947, the day before Roswell, Phoenix AZ: Witness **William A. Rhodes** (1916-2007), an astronomer and inventor, takes UAP photos using a box camera which are printed in the local papers.
- **Arnold and Palmer claimed the photos were censored. Turns out a CIC agent (and/or FBI) did go to the paper and get the photos.**
- See official Blue Book records:

<https://www.fold3.com/image/9669047/phoenix-arizona-40-page-31-us-project-blue-book-ufo-investigations-1947-1969>, backup URL here

UNCLASSIFIED

UNIDENTIFIABLE OBJECTS,
WILLIAMS FIELD, CHANDLER,
ARIZONA.

14 July 1947

MEMORANDUM FOR THE OFFICER IN CHARGE:

On 8 July 1947, this Agent obtained pictures of unidentifiable objects, (Exhibits 1 and 2) from the managing editor of the Arizona Republic newspaper. The pictures were taken by Mr. [REDACTED] Phoenix, Arizona, at sunset, on 7 July 1947. The Subject objects flew at unconceivable speeds, making three circles in the vicinity of Mr. [REDACTED] home. The pictures were taken with a box camera, size 620. The photograph (Exhibit 1) was taken as the object passed in front of Mr. [REDACTED] and Exhibit 2 as the object turned towards Mr. [REDACTED]. The height of the object was estimated at 1000 feet.

AGENT'S NOTES: See Exhibits 1 and 2, photographs of unidentifiable objects, enlarged approximately 20 times. No further reports have been received by this office of objects seen by military personnel.

DOWNGRADED AT 3 YEAR INTERVALS;
DECLASSIFIED AFTER 12 YEARS.
DOD DIR 5200.10

Lynn. C. Aldrich, Special Agent, EIC - AAF, FDTRC

UNCLASSIFIED

Suppressed Photos

- This is what they didn't want printed in the nation's newspapers. Why?
- Only printed on **the day after Roswell**, in the *Arizona Republic*, Phoenix, Arizona, Wed., Jul. 9, 1947, Page 1
- See
<https://www.newspapers.com/article/arizona-republic-rhodes-photo/141924411/>
- Authorities heavily investigated William A. Rhodes – see *Project Sign* records. Clean record.
- Minutes before: A mass sighting (80+ people) in Phoenix of "2 large silver orbs".

Mystery 'Whatsis' Photographed Over Phoenix

This flying object was twice snapped at dusk Monday as it circled north of Phoenix. William A. Rhodes, 4333 North 14th street, first shot the picture at the left as the slow-flying object was approaching him. As it banked to make a tight turn, he obtained the picture above, showing clearly the shape of the object. In seconds, Rhodes said, the "disc" shot away to the west at high speed. It had made three whirling turns north of the city, after approaching from the west. Aircraft identification experts yesterday would not hazard opinions on the object's nature.

Speedy 'Saucer' Zips Through Local Sky

By ROBERT C. HANICKA

THE FIRST clearly recorded photographs of what is believed to be a mysterious "flying disc" which has 35 states in America and even a few foreign countries on edge with its peculiar activities, was taken by an amateur Phoenix photographer.

Reproduced in The Arizona Republic today, the photographs were made by William A. Rhodes, 4333 North 14th street, who was on his way to his workshop in the rear of his home when he heard the distinctive "whoosh" of what he believed to be a P-80 Shooting Star, jet-propelled plane.

Rhodes snatched a camera from his workshop bench and by the time he reached a small mound at the rear of his home, the object had circled once and was banking in tight circles to the south at an altitude of approximately 1,000 feet, he said.

IN THE overcast sky the object continued its speedy flight from north to south and directly east of his position. Rhodes snapped the hurtling missile by sighting alongside his box camera.

Quickly rolling up his last piece of film, Rhodes awaited the return of the craft which continued in a clockwise movement over his house and as it disappeared into the west, the second shot was taken.

Rhodes described the object's disappearance as phenomenal since it apparently winged over and shot up into the ether.

"I don't think it was a P-80, since I have observed many of them over here. Also, the fact it made no other sound after the first pass over the house," Rhodes said, "makes me believe it was some other type of aircraft."

WILLIAM A. RHODES

Left: Suppressed/Censored Rhodes Photo. Right: Kenneth Arnold's sighting report.

Page 9

I have received lots of requests from people who told me to make a lot of wild guesses. I have based what I have written here in this article on positive facts and as far as guessing what it was I observed, it is just as much a mystery to me as it is to the rest of the world.

My pilot's license is 333487. I fly a Cessna airplane; it is a three-place single engine land ship that is designed and manufactured at Afton, Wyoming as an extremely high performance, high altitude airplane that was made for mountain work. The national certificate of my plane is 33365.

Kenneth Arnold
Box 587
Bainbridge, Idaho.

tracking this way →

they seemed longer than wide
thin thickness was about $\frac{1}{20}$ of their width

~~Indistinct~~ tracking this way →
mirror Bright

They did not appear to me to whirl or spin but seemed in fixed position traveling as I have made drawing.

Kenneth Arnold.

UNCLAS 17

3. Frank Scully's Archive

Frank Scully's Archive

- Tracked down author/journalist **Frank Scully's archive** to the **American Heritage Center** (AHC - University of Wyoming).
- Scully authored ***Behind the Flying Saucers* (1950)**: the first blockbuster book on crash retrievals (C/R's)
- **Book supposedly debunked, now forgotten. I'm taking a 2nd look.**
- Arranged for AHC researchers to digitize his archive for 1st time.
- We found recordings of then-famous **March 1950 University of Denver Lecture on the Aztec C/R**, and **George Koehler's secret AFOSI interrogation tape** ("Item #17"). Listen: <https://youtu.be/aVzZy9dKY1Q>
- **Archive is public here:** <https://medium.com/@richgel99/frank-scullys-papers-from-the-ahc-uploaded-to-google-drive-for-the-public-8a60a1a618ee>, Google Drive URL

Who was Francis Joseph Xavier Scully (1892-1964)?

- Educated at Columbia University, worked at *New York Sun, Variety, 20th Century Fox.*
- Helped Grand Duke Alexander of Russia (advisor to Emperor Nicholas II) write life story.
- 1957: Pope Pius XII Knighted Scully (**Order of St. Gregory**). (*Grusch: Vatican was/is involved.*)
- Passed away nearby in Palm Springs CA.
- Wife Alice (left in photo) donated his archive to the American Heritage Center in 1988. Photo from *Desert Sun, Volume XXX, Number 144, 13 March 1957*
- May have also met the Pope in person

AUTHOR FRANK SCULLY on Sunday was officially received into the Order of St. Gregory the Great at St. Theresa Church, and to his wife, Alice, went the honor of pinning the gold medal of St. Gregory on his chest.

Frank Scully Knighted into Order of St. Gregory the Great Before Large Crowd

Behind the Flying Saucers (1950)

- First Crash Retrieval (C/R) book. 1950 blockbuster **described at least 3 – not just Aztec NM (1948).**
- Had **8 scientist informants:** “**Dr. Gee was a composite of 8 different scientists, whose stories were tape recorded and then synthesized by me where they were in substantial agreement.**”
- Archive shows at least one was at **Wright-Patterson AFB, another at Lockheed. Scully never published this information.**
- Archive **contains many hours of wire and tape recordings.**
- **Found legal release forms** for a planned movie for these 8 scientists.
- Wrote that **saucers may use a form of magnetic propulsion.**

Scully's book debunked, supposedly

- Debunkers claim: Scully was exclusively receiving info *only* from 2 individuals: **Silas Newton and Leo GeBauer**.
- Press **hit piece** in 1952.
- **They tried to buy off Scully right before** with a cash payoff. **Scully refused.** (Details in his archive.)
- **Newton/GeBauer “lawfared”** in 1953. (IMO: They were used.)
- Scully's wire recordings, still undigitized, may contain their interviews.
- **Scully's book did NOT refer to only 1 crash at Aztec**, but several. **One is similar to Roswell.**
- **Dr. Robert Sarbacher (Einstein Student, US R&D Board) and Stringfield (WW2 AAF intel, author, ufologist) supported his book.**

Scully's unpublished notes: “One of Dr. G’s men, assigned to right field [sic]...” “Will talk privately with what’s going on saucer-wise at Lockheed.”

Feb. 10 One of Dr. G's men, assigned to right field, was ordered to report to the Pentagon pronto. Head of the Air Force research quizzed him for hours on all he knew about the Aztec flying saucers and at the end of the interview told him to forget all he had said or heard.

Feb. 15 Robert Imanidt, photographer at Lockheed, whose address 1213 West Avenue 37, L.A. 31 'phone Capital 8311. Will talk privately with what's going on saucer-wise at Lockheed.

2008: Scully Related Files are Still Classified

- Below: **Author Nick Redfern** tried to use **FOIA requests** to pry out official files related to the Aztec crash
- Redfern stated in the 2008 re-release of *Behind the Flying Saucers* that **some files (about Leo GeBauer) are still classified**
- *So, why would files about a supposed hoax be still classified?*

“The FBI released to me,” Redfern said, “200 pages of a file that in itself is at least 400 pages in length, and at least half of which the FBI to this day will not declassify. And parts of that file are still classified in the name of national security 60 years later. Which is kind of surprising and often opens a lot of people’s eyes. The idea that if this was a straightforward hoax, why doesn’t

Author/Researcher Leonard Stringfield (WW2 Army AF Intel) on Scully's book

- Stringfield: “**So completely was Scully's retrieval story put down** that some researchers today wonder, in retrospect, **if the book and/or its exposure were contrived**. And, despite denials and the suspicions of research, **the crash and retrieval stories persisted.**” (*Retrievals of the 3rd Kind - Part 1*)
- Before he died, Stringfield found more witnesses to the Farmington/Aztec C/R.
- See *UFO Crash Retrievals - The Inner Sanctum* (July 1991).

Dr. Robert Sarbacher on Scully's Book

- ~1 week after book published, on 9/15/1950, in a conference between Canadian Wilbert Smith and **Einstein Student Dr. Robert I. Sarbacher (a consultant to the US R&D Board)**, Sarbacher revealed Frank Scully's 1950 ***Behind the Flying Saucers*** book is true and “substantially correct”
- Sarbacher: **Flying Saucers exist**, we haven’t duplicated their performance, they didn’t originate on the earth, subject **classified higher than the H-bomb**. **John von Neuman** and **Dr. Vannevar Bush** definitely involved. Possibly **Robert Oppenheimer**. **Eisenhower invited Sarbacher to attend several discussions related to the retrievals**.
- See *Above Top Secret* by Timothy Good page 525, also see *UFO Crash Retrievals – Status Report III* by Leonard Stringfield.

4. BSRA Archive – Located at the Archives for the Unexplained (AFU) in Sweden

BSRA Founder Meade Layne: Key early figure

Layne, Meade, founder of the venerable Borderland Sciences Research Foundation. Layne was for many years the editor of BSRF's *Round Robin* and other journals, and he worked closely with trance channeler Mark Probert. Layne was also a student of the work of Frater Achad. At one time, Layne had been a member of the Society of the Inner Light, a direct offspring of the Hermetic Order of the Golden Dawn. At the end of the 19th century, this Society developed its rituals from certain Rosicrucian cipher manuscripts based in the teachings of the Third Order, or Secret Chiefs, or Ascended Masters — which are identical with the Space People in contact lore. That so much cipher material shows up in

and around Layne, who was said to be in frequent communication with the Great White Brotherhood, is highly suggestive that he was one of those who introduced the cipher into UFO trance-channelled contactee lore. Layne was also writing about flying discs before Kenneth Arnold's sightings. He also introduced the idea of channelled masters to UFOlogy.

What *really* was the BSRA? Psychic spies.

- Begun in 1945 by **Meade Layne** (1882-1961): “not a scientist or mathematician”, but “an academician who.. strayed into **borderland sciences and psychic research.**” (In reality: *Meade Layne was several people – author Allen Greenfield.*)
- “We want to print short articles, data, items of various kinds supplied by our “members” ... and perhaps a few notes of, each time, of the **Fortean** variety...”
- **Sci-fi authors, “mediums” or “channelers”, and remote viewers**
- Meade Layne was patriotic, **forwarded key info to the US Gov./US Mil.**
- **Started receiving UFO reports in Oct. 1946**, sent to newspapers.
- ***BSRA knew the saucers were coming; warned the public in 10/1946.***

Some of BSRA's “Memorandum of Importance” are in official FBI vault files

- This one dated **July 8, 1947 – the same day as Roswell**
- See
<https://vault.fbi.gov/UFO/UFO%20Part%201%20of%2016>
- Their associates were doing their best to figure out what was happening - Meade was compiling and forwarding it along

BSRA also Issued Some Special Reports

5. Whistleblower Background Checking

- Studied Greer's book ***Disclosure: Military and Government Witnesses Reveal the Greatest Secrets in Modern History*** (2001).
- Searched book for witnesses with **verifiable mil/intel/aerospace/etc. backgrounds**
- Two stood out: **Donald Phillips (Ex-USAF/CIA/Lockheed Skunkworks)** and **William G. Uhous (USMC, Korean War vet, secret aviation projects)**.

Key Whistleblower: *Disclosure Project* Witness Don Phillips

- **Donald H. Phillips, USAF: Assigned to Las Vegas Air Force Station, NV in 1965**
- See *Valley News*, Van Nuys CA, Thu., Jul. 29, 1965, Page 7
 - <https://www.newspapers.com/article/valley-news-donald-h-phillips-being-ass/102225007/>

Donald H. Phillips
Being Assigned to
Station in Nevada

Airman Third Class Donald H. Phillips, son of Mr. and Mrs. Harry A. Phillips of 662 Wolfskill St., San Fernando, has been graduated from the technical training course for U.S. Air Force administrative specialists at Amarillo AFB, Tex.

Airman Phillips, now proficient in the preparation of Air Force Correspondence and reports, is being assigned to Las Vegas Air Force Station, Nev.

The airman, a graduate of San Fernando High School, attended Pierce College and Valley College.

What did Don Phillips claim? A meeting with NHI's in California.

- Quote from Don Phillips
- See video interviews
- What's up with **Edwards AFB in 1954?**

We have records from 1954 that were meetings between our own leaders of this country and ET's here in California. And, as I understand it from the written documentation, we were asked if we would allow them to be here and do research. I have read that our reply was, well, how can we stop you? You are so advanced. And I will say by this camera and this sound, that it was President Eisenhower that had this meeting. And it was on film, sort of like what we are doing now. Bringing it up to date, the NATO report gave that there were 12 races. To make a final summary, they had to have contacts to go to these races in order to understand who they are, what they are doing, and what they could do. And the report didn't get into the context, but it certainly did verify that they haven't been here for just a few years, but rather hundreds maybe thousands of years. And, this is written in the text.

6. Stanton Friedman Was Right: “Radar, Rockets, Nukes”. Turns out radar’s true history is fuzzy.

Key 1940's Developments: Radar, Rockets, Nukes (Friedman) – and Digital Computers

- WW2, early-mid 40's: **Still secret radar bounces off the Moon**
- 6/1944: V-2 reaches space (some say earlier during the war)
- 7/1945, 8/1945: Trinity explosion, Japan a-bomb attacks
- 12/1945: ENIAC Electronic Computer announced (my addition)
- 1/1946: *Project Diana* (*claimed* 1st Moon radar bounce) announced
- 6-7/1946: *Able* and *Baker* a-bomb tests (*Operation Crossroads*)
- 10/1946: **Radar first used to detect meteors** (Giacobini-Zinner)
 - Coincidentally: **Many west coast UAP sightings reported to BSRA** during this same shower – **BSRA said in newspapers UAP's would return within ~1 year** ("Kareeta")
- 10/1946: First photo taken from space
- 6-7/1947: **All hell breaks loose** over CONUS, Canada, Mexico, etc.

RADAR SIGNALS HIT MOON, FLASH BACK

Long-range weapon,
space ship control
seen in experiments

WASHINGTON, Jan. 24.—(UPI)—Army signal corps scientists have made radar contact with the moon, opening up the possibility of radar exploration of the moon and planets and control of long-range rocket weapons and space ships, the war department disclosed tonight.

Contact was established on Jan. 10 with special equipment set up at the Evans Signal laboratory, Belmar, N. J.

High frequency energy pulses were sent out in half-second pulses at 5 second intervals. The pulses, reflected back to the earth from the moon, were recorded in about 2½ seconds.

That represented the time required for the radio waves, traveling at 186,000 miles a second—equal to the speed of light—to reach the moon and return.

Astronomers calculate the average distance between earth and moon as 238,857 miles.

Mr. George E. Ingles, chief signal officer, said the announcement was withheld until the original contact was confirmed beyond doubt by later experiments.

The scientists used several means of reaching celestial bodies. The experiments were directed by Lt. Col. John H. DeWitt Jr., former director of the Evans laboratory.

The contact, approaching in scientific interest the development of atomic energy, proved for the first time that radio waves could travel through the atmosphere beyond the earth's atmosphere.

Moreover, scientists never have succeeded previously in generating continuous waves in the high frequency band of radio to attain a range of nearly half a million miles.

Colonel Ingles recalled that Sir Edward Appleton, prominent British physicist, recently predicted that scientists might map the moon's surface accurately with radar. But other authorities believe that improvements in radar techniques would be necessary first.

The war department said the experiments opened up the possibility of controlling long range jet or rocket projectiles traveling the earth above the stratosphere.

The German V-2 rockets are believed to have reached 60 miles altitude.

It was the story related by the two adopted Eggers' daughters, who told investigators about the argument they had with their foster father over a matter of money.

The story, as the two girls—Mrs. Mary L. Lewis and Mrs. Anna M. Lewis—told it, was a matter of their father Arthur Eggers, endeavoring to refresh their memories on a matter that never came to pass.

Lorraine told how her father tried to "refresh her memory" on

VERNON POLICEMAN SLAIN BY PRISONERS

Five CENTS Daily News **Metropolitan**

Los Angeles 54, FRIDAY, JANUARY 25, 1946 A 24 HOUR NEWSPAPER TEL. RICHMOND 4565

Shot down in station courtyard

Motorcycle policeman Richard Pennington, 30, of the Vernon police force, last night was shot to death by two men he was bringing into the station under arrest.

The 30-year-old Pennington, who lived at 2011 California st., Bell, made the arrest when the two men in an automobile drove through a traffic blockade on Pacific Blvd., east of Santa Fe ave.

He flagged them to the curb, found them to be intoxicated and ordered them to drive to Vernon police station while he rode escort on his motorcycle.

As the automobile was being parked in the courtyard of the police station, the men opened fire, putting five slugs into Pennington's head and body.

The injured policeman, a recently discharged army war veteran, was taken to Maywood hospital where doctors reported him to be dead on arrival.

Details of the arrest and escort to Vernon police station were related to officers by Harry Kelly, 722 W. Garvey Blvd., Monterey Park, friend and fellow officer of Pennington.

Pennington's several friends in the adjoining fire station caught fleeting glimpses of the two gunmen.

They were described as being about 30 years of age and darkly dressed. Both were Negroes.

U.S. Army Contacts Moon by Radar

Australia
Also Claims
Feat Done

Many Possibilities
Seen by Scientists

By Associated Press

WASHINGTON—The army today claimed the world's first scientific contact with the moon in a Jules Verne feat which spanned 238,000 miles of outer space by radar.

AUSTRALIA TOO

In Los Angeles last night a former Australian army major told newsmen Australian scientists made radar contact with the moon four years ago.

Government astronomers said the achievement might lead to the answer of the age-old question whether any form of life exists on the moon.

Another possibility was that it might usher in radio control for super-range jet or rocket projectiles which could be kept hovering ominously above the earth in the stratosphere.

The war department reported that the results of the experiment promise "valuable peacetime as well as wartime applications." Far-roving space ships were listed as one of the "less likely" applications.

The first radar contact with the moon was made January 10, it was disclosed, and the feat has been successfully repeated several times since.

The experiment has been carried out by signal corps scientists, working at the Evans signal laboratory at Belmar on the New Jersey coastline. The army released the first details of it last night.

It took only two and a half seconds, the report revealed, for a radar echo to bounce back from the moon, normally, about 238,857 miles distant from the earth.

SPECIAL EQUIPMENT

Scientifically designed equipment used in the test shot radar pulses out into space at the speed of light—186,000 miles per second—and other apparatus picked up the returning echo.

Working with Dr. J. H. Piddington, a scientist in the radio-physics laboratory at the University of Sydney, we contacted the moon several times in October or November, 1941," W. E. Osborne, former Australian army major who is doing secret research work for the American Government said last night.

OTHER REVELATIONS

The magazine in a copyrighted article also quoted Churchill as saying in the 10,000-word talk that:

"The one bad word is danger now."

It was also disclosed by police that

MIAMI, Fla.—A.F.L. President William Green today announced the reaffiliation of John L. Lewis and his 500,000 United Mine Workers with the American Federation of Labor.

John Lewis,
Miners Back
In A.F.L.

Former C.I.O. Chief
Gets Executive Post

MIAMI, Fla.—A.F.L. President William Green today announced the reaffiliation of John L. Lewis and his 500,000 United Mine Workers with the American Federation of Labor.

TO ATTEND SESSION

Lewis immediately was elected to the vacancy on the executive council created by the withdrawal of Harvey W. Brown, president of the machinists, whose 700,000 dropped out of the federation in October, 1943.

Green said Lewis would attend next week's sessions of the council, expected to be merely routine.

Lewis was said to be on his way from Springfield, Ill., to Miami to formally bury his differences with his oldtime colleagues on the A.F.L. executive council now meeting at Miami—barring some unforeseen developments.

Lewis left the American Federation of Labor in 1936 to form the C.I.O., and later left that organization for United Mine Workers.

William Green, president of the A.F.L., has been in frequent contact with Lewis.

FEARS NO INTRIGUE

Green announced the action was taken unanimously by the council.

Lewis paid \$9,000 in January taxes to the A.F.L.

The A.F.L. chief branded as "absolutely false" reports that he would resign so that Lewis could be elected president of the federation. He also declared that he had no fear that Lewis would "intrigue" against his leadership.

This artist's drawing shows how radar indicated the moon was contacted. Radar "pips" or echoes were recorded by scientists on an approximate range of 240,000 miles. This meant the radar waves had struck and bounced back from an object that far away. Since there is nothing at that distance the object must have been the moon.

Trick Refraction of Light

Prof Scoffs at Flying Saucers

CAMBRIDGE, Mass., July 19.— Flying saucers are actually optical effects, like rainbows or mirages, says Donald Menzel, Professor of Astrophysics at Harvard and a leading authority on radar and solar research.

In a new book, "The Truth About Flying Saucers," to be published shortly by the Harvard University Press, Dr. Menzel explodes the idea that the saucers are space ships from another planet. Drawing on an extensive series of laboratory experiments, as well as on theory, he presents a thorough scientific analysis of these mysterious objects.

According to Dr. Menzel, the sight of saucer-like objects flying silently through the atmosphere at incredible speeds usually results from the trick refraction of light under special weather conditions called "temperature inversion." In this natural phenomenon, he gently, Menzel noticed that the saucer image moved with the familiar darting motion. He took photographs of his "homemade" saucers, which correspond exactly with the much-publicized photographs of the "interplanetary" saucers.

Dr. Menzel emphasizes that unusual weather conditions are required to produce flying saucers. The fact that deserts are the best area for observing this unique visual phenomenon is the reason why more have been reported lately, he says. The Southwest area of the United States has only recently been occupied by a large, alert population. The men from the air bases and laboratories are just the sort of observers that would notice flying saucers. Furthermore, the clear air of the desert regions allows greater visibility. An observer of flying saucers himself, Dr. Menzel is convinced that despite the hoaxes and mistakes, many of the reports have been valid and reliable observations.

UFOs? They may be soap bubbles

DENVER (UPI)—There are more than 50 "flying saucers," but they can be anything from soap bubbles to spider webs, according to the director of the Harvard College Observatory.

The unidentified flying objects (UFO's) are not spaceships, but "some very plebeian reflections from natural objects."

Dr. Donald Menzel, one of the nation's leading astronomers, claimed that all sightings of "flying saucers" are really natural phenomena.

"If you want to—if you have a good enough imagination—I could take you out on any clear night and you can see 'flying saucers' by the dozens," Menzel said.

Menzel, a 1920 graduate of the University of Denver, was back in town to support DU's alumni fund drive.

He said there is no evidence of exploration of earth by men from other planets.

Some explanations of UFO's are sunlight or strong ground lights reflecting from high-alti-

pieces of foil carried aloft by wind, kites, ice crystals and "lenses of air" created by layers of cold air on top of warm

Bright stars seen through such "lenses" appear larger, flash different colors and sometimes dart about in strange patterns. Menzel said.

See some of Menzel's "swamp gassing" newspaper clippings [here](#) and [here](#)

“Menzel Gap” – Astronomy term. Plate log books destroyed, plates not saved thanks to Menzel.

- Key astronomical survey plates and log books are gone – thanks to Dr. Menzel
- Right: “[Opening the 100-Year Window for Time Domain Astronomy](#)” by Grindlay, Tang, Los, Servillat
- Astronomer [Dr. Beatriz Villarroel covered the “Menzel Gap” situation recently](#):
 - End of 1952: Menzel destroyed 1/3rd of Harvard plate collection, including some logbooks
 - 1953-1967: He stops astronomers from saving to photographic plate collection (“Menzel Gap”)
- 1968: Soviet UAP expert Dr. Felix Ziegel stated UAP’s “**leave distinct images on photographic plates**”. See [here](#).

Figure 3. Light curve of 3C273 from 786 points (of 1494 total) measured by DASCH (Grindlay et al., in preparation). The 708 points not plotted are within 0.75 mag of their respective plate limiting magnitude and may therefore have larger errors. One example of a flare event over a 3-day time-scale is shown in the inset. Note the absence of DASCH measurements during the “Menzel gap” period from approximately 1955–1970, as discussed by Grindlay and Griffin ??

- Stanton Friedman said radar was crucial to understanding UFO's. He was right.
- *Palladium-Item*, Richmond, Indiana, Sun., Jul. 6, 1947, Page 1. See
<https://www.newspapers.com/article/palladium-item-flying-saucers/139586202/>
- This means very powerful radar pulses were sent into space and bounced off the Moon in absolute secrecy – before *Trinity*
- Dr. Donald Menzel (uber UFO debunker, led a very secret classified life according to Stanton Friedman's research, of *Menzel Gap* and MJ-12 infamy), did the calculations for this bounce in 1941. See [here](#).

try, Starr declared.

"Man Made"

Two Chicago astronomers said the discs are probably "man-made." The undulating, flashing objects "could not be meteors," said Dr. Girard Kuiper, director of the University of Chicago's Yerkes observatory at Williams Bay, Wis.

"We realize," said Dr. Oliver Lee, director of Northwestern university's Dearborn observatory, "that the army and navy are working on all sorts of things we know nothing about."

Lee said the discs might represent the same sort of thing as sending radar signals to the moon, "one of the greatest technological achievements of the war and accomplished in absolute secrecy."

The unnamed scientist quoted by The Los Angeles Herald and Express said, according to the paper, that "these so-called saucers are capable of high speeds but can be controlled from the ground. They are 20 feet in width in the center and are partially rocket propelled on the takeoff."

Additional Secret WW2 Radar Moon Bounce Corroboration Found

- 1/25/1946: *The Daily Advertiser*, New South Wales, Australia: A former Australian Army Major W. E. Osborne, "engaged in secret research for the US Government", told reporters they made contact with the Moon in late 1941.
 - <https://www.newspapers.com/article/the-daily-advertiser-project-diana-is-bu/150416968/>
 - Was reported in Australian and US newspapers.
- *Project Diana* is just a narrative, i.e. a show.
 - They used Pearl Harbor-class (SCR-271, 1940-1941) radar gear. **Feat was technologically achievable in ~1941.**
 - (How much Collins Radio gear was also involved?)

Australian Claims Earlier Success

LOS ANGELES, Friday: A former Australian Army Major, W. E. Osborne, who is engaged in secret research for the U.S. Government, told reporters that Australian scientists working with Dr. J. H. Piddington, at Sydney University, made radar contact with the moon several times during October or November of 1941. He said that experimental high-powered radar equipment with an extremely short micro-wave was used, and the interval was 2.4 seconds.

The American Associated Press correspondent who interviewed Major Osborne, said he predicted that rocket trips would be made to the moon within a decade.—A.A.P.

7. Sighting Databases Investigation: A Case of Missing Data

Left: Larry Hatch - Programmer, UDB (or *U*) Database, began compiling in ~1985.
Right: Hatch's DOS database viewer product

Larry Hatch's *U* Database Referenced in a paper by Dr. Jacques F. Vallee

- See paper ["Are UFO Events related to Sidereal Time? Arguments against a proposed correlation"](#) by Jacques F. Vallee
- *U* reviewed in Feb. 1995 of the MUFON Journal

distribution for the occurrence of CE2 events (close encounters with physical effects). Johnson found the distribution of figure 1, with a peak at 14:00 hours. Johnson also found a similar peak between 13:00 and 16:00 hours for close encounters of the Third Type (CE3 events) with Chi-square significance at the level of p less than .0000001.

Figure 1. LST distribution of CE2 events from UFOCAT
(shown here on a 24-hour clock)

In these studies the peak comes at times that are different from those found by Poher and Sturrock. In order to conduct an independent analysis we started from the same basis as in the Sturrock study and extended it to a catalog of French cases. The Sturrock results are based on a catalog known simply as *U* published by Mr. Larry Hatch (Hatch 2001). The version we used contained 17,757 records and was released on 23 July 2001. The last event recorded in this catalog was dated 20-Jan-2001.

The Hatch catalog runs on any personal computer equipped with DOS and can be readily understood even by the casual user. As the analysis proceeds with increasing sophistication the catalog reveals many layers of useful data, under a consistent coding system. Mr. Hatch has compiled it from the best-available sources in the literature and has refined the list by comparing these sources among them, resolving issues such as date, time and location. Over the years he has continued to add new cases and to remove entries that seemed dubious as new information came to light. Thus, while the Hatch catalog is not homogeneous it is most valuable because it is the result of a systematic process of filtering and data reduction. Furthermore, it is possible to partially minimize

fm Larry Hatch

to Thomas J. Brown
c/o Borderland S.R.F.
P.O.Box 429
Garberville, CA 95542-0429

Dear Mr. Brown:

I have been programming UFO sightings into a database of my own design for the last decade.

The *U* database is highly recommended by Dr. Richard Haines, James M. McCampbell and Jacques Vallee. Haines and Mc Campbell suggested that I market the package mail-order to UFO groups and researchers. Haines, Dr. Peter Sturrock of Stanford and others have suggested new features which I have added to this unique product. A large proportion of my clients to date are at the doctoral level.

U was very favorably reviewed in the FEB 95 issue of the Mufon Journal.

Dr Jacques Vallee drove to my house for a demonstration, and called back an hour later with a ringing endorsement. (See mailer enclosed)

For research purposes, the *U* package may serve as a super-index to sightings that have been in the literature or media. Each book case cites reference and page number. Magazine cases give the Issue number. There are over 11,100 cases, painstakingly cross-checked for accuracy.

The map screens are impressive and convincing. You could use the EME and/or TRC attributes from a field of 64 attributes to zero in on cases involving electro-magnetic effects or physical traces left by UFOs for example.

Please note the displays overleaf. These are much more impressive on your VGA screen. *U* is for any DOS system, (IBM compatibles). There is no MacIntosh version. Windows users call *U* directly instead of Windows.

The price (\$ 49.50 total plus tax in CA only) is artificially low to encourage wide usage. My limited resources go into the *U* Database itself, I cannot afford splashy advertising.

Could you possibly make some mention of *U* in your newsletters or other publications? I will gladly send a mailer like this one to anyone who drops me a card or calls providing an address or PO box. I respond immediately to all orders/inquiries, and don't mind giving out my personal address and phone.

Sincerely
Larry Hatch
Larry Hatch.

UFO/UAP Datasets: There is missing data

- In the book *Investigating UFO's* by Kettelkamp, page 48, it says **NICAP catalogued 850 sightings just for the summer of 1947.**
- So how many NICAP sighting records have I found for the entirety of 1947 on the web? **Only 101.**
- **Strange - something is wrong.**

UFO/UAP Datasets: There is missing data

- Left graph is from SCU's recent paper *UAP Activity Pattern Study 1945–1975 Military and Public Activities*
- **Notice the # of NICAP incidents in this graph for 1947 is around 100.**
- Key data is missing!
- Why is SCU using this flawed data in its papers?

Figure 3-17. Number of incidents reported by U.S. Airforce, Sparks, and NICAP databases (1945 – 1975)

Larry Hatch's “UDB” Sighting Dataset: June-July 1947

- The peak summer of 1947 day for sighting reports in this public dataset is **July 7, 1947**
- This is **the day before Roswell** (July 8, 1947)
- Was there WW2-style press censorship (“containment”) in 1947 after July ~7?

UFO/UAP Datasets: There is missing data

- From *Report of the 1947 UFO Wave* by Ted Bloecher and Dr. James E. McDonald (Atmospheric Physicist) (1967).
- Graph has ~160 reports for just a single day in July 1947 (!)
- Peak is July 7, 1947 – The day before Roswell

Newspapers.com database keyword hits for the summer of 1947 – Notice the shape/spike

- **Peak: July 9, 1947 (Day After Roswell)**
- Nearly all are “flying saucer”, “flying disc” or “flying disk”
- **21,713 total hits just for 6/26/1947-7/31/1947**
- **Many databases show a massive wave of reports for June-July 1947**
- ***Newspaper hits align with UFO databases, same peak days***

More 1947 corroboration from the USAF's own public 1949 memorandum

- USAF's own official *Project Saucer* public memorandum (M26-49, April 27, 1949) agrees with modern UAP datasets. The USAF said reports increased throughout 1947 and peaked in July (page 17):
 - “*A frequency graph compiled recently shows that saucer sightings began in this country on a small scale in January of 1947, and reached their peak in July of that year, shortly after the Mt. Rainier incident. They then fell off sharply for the rest of the year, but reoccurred in relative frequency in January, July, November of 1948.*
- Memo was covered extensively in the press, examples here and here.
- Specific quote above also in 1949 newspapers, see example here.

Worldwide Historical Trends – Hatch Dataset

- Significant years: 1947, 1950, 1952, 1954, 1957, 1966-1968, 1973, 1978, smaller peaks in 1986 and early 90's. *Notice 1947 spike.*
- **All-time peaks: 1947/1952/1954/1957/1967.**
- ~1960: Odd lull - coincidentally, **the USSR/US suspended nuclear tests between Nov. 1958 to Sept. 1961**
- The data falls off post early 2000's (partially because the **researchers died**)
- Some observations:
 - 1947: First large 20th century spike
 - 40's-50's: Classic saucers/flying discs
 - Late 60's spike: of underappreciated intensity
 - 70's/80's: **Mystery Helicopters**, mutilations
 - 90's/early 2000's: era of **large silent triangles**

Worldwide Year Event Histogram of rr0's UAP Event Chronology

- Compiled circa 2002 by Jérôme Beau for the “rr0” French chronology

SHOOT DOWN SAUCERS, JETS TOLD

Storm Repair Rushed

Woman Dies, 4 Hurt; Bolts Hit Buildings

A woman was dead and many district homes were without electricity today in the wake of violent wind and thunderstorms which hit Pittsburgh.

The dead woman was Mrs. Jessie Pearson, 60, of 56th Street. She was struck by lightning while working in her garden near Elginwood Club.

Four others were injured in the storm.

But trying to gather complete information on all the damage to Duquesne Light Co. lines, a spokesman said:

"This is probably worse than the storm of two weeks ago."

That was declared "the worst in the history of Duquesne Light Co."

MANY WIRES DOWN

Emergency crews, busy since yesterday, still were struggling today to restore power. Many wires remained down in many parts of the city and its suburbs, and some 100,000 incandescent light lines were knocked out.

Duquesne Light Co. hoped to get all power restored to the system this afternoon, restoring power to white communities.

In some areas where there may be no power tonight, such areas are likely to remain dark.

MARD HIT DISTRICTS

Especially hard hit were Forest Glen, Chelmsford, Essex, having the name for the

Alcoa Strike Averted By 21.4c Raise

The nation's industrial peace movement ended as a 21.4-cent hourly package averted a strike at nine plants of Aluminum Co. of America and major steel mills stepped-up operations after a 33-day shutdown.

At the same time U. S. Steel Co. put increased prices into effect under a higher ceiling proposed by the company's management.

Both sides agreed to a 21.4-cent minimum raise.

The company announced that material shipped beginning last Saturday will be involved at the new rates. The company's aluminum director established the authorized minimum to sell aluminum to its customers.

Defense Mobilization Authority had authorized an increase in the cost of aluminum, amounting to grades of steel.

DIVISION ROOST PRICE

Other operating U. S. Steel companies making major announcements were American Steel & Wire, Columbia-Geneva Steel, Republic, Timken and Tennessee Coal, Iron & Railroad.

The Alton settlement with CIO members of the company reached on the eve of the replacement of the present Wage Stabilization Board by a new board without power to handle disputes.

Workers' earnings, averaging \$1,500 a week, including 1200 at New Kensington, were granted a 15-cent increase, effective retroactive to March 20 and four

Role of Innocent and Grieving Widow Over With Confession of Aid in Theft

Millard Wright home. He holds portable sewing machine. Mrs. Wright has confessed to aiding husband in burglaries.

WRIGHT, Pa., July 29—Mrs. Roberta Wright, widow of Millard F. Wright, apparently was thrill-happy when she aided her spouse in a series of at least 22 robberies in the Tri-State area. The pair stole with zest of magpies.

RAKESFIELD, Calif., July 29—(AP)—Two sharp earthquakes jolted the Bakersfield area during the night.

The Air Force, which has conducted a series of flights on the western coast of North America, turned to a new type camera to photograph strange jet planes which were unable to reach the speed of sound in recent days.

The CAA said that no commercial pilot safety was raised because the cameras did not interfere with the radar screen, but that he suggested returning.

The nation's unidentified objects were reported moving "at speeds greater than the speed of light," or "exceeding the speed of light," — indicating they were unpowered unless they were unpowered air currents.

Luder Valley: June 1946, Sci-fi short story printed in Palmer's Amazing Stories ([link](#))

- Amazing pre-saucer era prototypical crash retrieval story: the Germans find a crashed NHI spacecraft during WW2, US retrieves it.
- Before US intel can retrieve it to help their war effort, American counterintelligence (a “T-Force”) finds it too.
- Story: **If the craft fell into Nazi hands the war could be lost:**
 - “..was thinking of the whole future of science if I could get that ship intact into the hands of American authorities..”
- Sounds like David Grusch: Claimed Italians had craft, Vatican assisted, we retrieved during WW2.

1946 Luder Valley Story Concepts

- Pre-1947: Crash retrievals, T-Forces, secret R&D programs
- **Radar development was accelerated or developed from tech found in a crash retrieval (radar - again!)**
- 3D holograms, incredible tech, exotic materials
- The great powers intensely fighting over NHI technology/craft
- Secret aviation tech used by special forces years before public knows
- NHI occupants in suspended animation
- The tech being patented, civilians immensely profiting
- Retrieved tech changing the war's outcome, influencing science
- Shaver nailed it (see Grusch). How did he know?

Richard Shaver – 1940’s Sci-Fi Author – 10/1946 Newspaper Hit

- Shaver (of the “Shaver Mystery”) was a brand created by publisher/editor Ray Palmer. In reality: a placeholder-some stories not his
- Ray Palmer is said to have heavily edited Shaver’s rough manuscripts to make them publishable.
- Turns out others “**collaborated**” with Shaver too. See clipping on right.
- **Luder Valley is not a typical “Shaver Mystery” story. Highly doubtful Shaver wrote this.**
- Right clip: *Pittsburgh Post-Gazette*, 10/3/1946, Page 8, [here](#)

11/20/1953: In Scully's private archive at the AHC:
A letter to Newton (Box 3 FF1): "A live pilot was
captured". Never published.

But to lighter things. The reason Gene thinks it unwise to talk to you at his house is that he has good reason to believe his phone is tapped. Some weeks ago he fell upon a fantastic tale through that sound engineer at Disney's. It seems, according to the story, a saucer landed in the area of Edwards Air Base near Mojave. A live pilot was captured. He was loathe to talk but he did point out on a map to the planet Mars. The main difference he showed from earthbound mortals was that his circulatory system was not operated by any pump similar to our heart. Gene wanted to know if I could get in there through some high member of the Air Force. I started to hunt out among those with the rank at least of Brig Gen, when Gene called me and told me to forget it because security had clamped down on the thing. He had learned through Brian Dunlevy who was in Navy Intelligence that nobody could get in or out of Edwards for the moment. Not even phone calls were going through to certain staff members.

January 24, 1954: Naval intel: "A saucer and a being off a saucer were in custody at Edwards air base". Scully never published this either.

January 24 Notes. Gene Dorsey, Frank Scully, Alice Scully

Around the middle of November '53, George Williams, former US Navy flier, with a total of 12 years flying experience, was living in Sierra Madre, now an automobile salesman, working for the Ford Agency in San Fernando. (At the tail end of the war he was transferred to naval intelligence). He drove to the Rosamond Gate of Edwards Air Base at Muroc Lake, having heard that a saucer and a being off a saucer were in custody at Edwards air base. He was a friend of a technician working for Bell Aircraft sent out to work on a Bell Aircraft rocket ship which consequently set a new record (in December). Williams had visited his friend several times and had sold him a car. Due to his having been in Naval Intelligence he was given papers and security clearance ~~xxxxxx~~ to enter the base. On this Friday evening he went to the guard house and asked to see his friend. He was informed that there were no visitors allowed by the guard. He then asked if he could talk to his friend on the phone which the guard let him do. He got his friend on the phone and the friend apologized to him for not being able to get him in, as he stated the field was under security orders. While phoning he said he had difficulty in hearing his friend, due to flights in threes of both conventional and jet aircraft flying overhead at 1500 to 2000 feet altitude. They appeared to him to be circling and as he remarked flying 'legs' over the area. On being informed that he could not get in, he turned to go back to his car, and there were three MP's grouped and having a conversation. Being very disturbed about not getting in he said "What's going on around here. Have you got a flying saucer here?" The three MP's reacted to his remark by quick looks at him. He felt ~~xxx~~ it registered with them. He also noticed, as he was

driving out 3 or 4 cars with the sign Press on the windshield and two or three men inside sitting ~~there~~ smoking as though they were reporters waiting for some announcement.

He then decided to stop by the town of Rosamond and went into the first of three cocktail lounges. The place was practically deserted. He made the remark to the bartender. "Where is all of your business. Bartender remarked "I don't know. There hasn't been any for a couple of days." He went to the second cocktail lounge. Same story. The third bartender said: "You see that serviceman? He has been ~~there~~ for three days and he's the only one from the field." Williams walked over and being an ex-serviceman himself started talking old head to him and asked him what all this security business was all about, and the serviceman stated he didn't know. He had reported back to duty after a three or four day pass. They wouldn't let him back on the base and his leave had been extended and so he was waiting to get back on base.

Wednesday, prior to the Friday referred to, Brian Donlevy, on hearing of this supposed security said "I'll find out in a hurry. We'll fly up there. I've given a pool table and a lot of entertainment for the USO and done many favors for the base and am well acquainted with most of the top brass, and I have flown in there many times, and due to having been in the Air Corps intelligence during the war, have an opportunity of knowing first hand, from seeing the reports, that the flying saucers do exist.

(Donlevy's reason to believe. A pilot went up with a B 29 and had fuel for 8 minutes but stayed up for three hours. - suspended by a flying saucer. A general, visiting the field at the time, was a down-on-earth witness to this. The time involved and the amount of gas eliminated any possibility of a hoax. Andy Weil told Gene Dorsey

3/24/54: Scully notes - more Edwards AFB "data". Again, never published. (Box #6 FF6)

March 24, 1954

Follow up of Flying Saucer notes.

The Edwards Air Force item of a few months ago is still seemingly completely true. Further data reveals that they still have the flying saucer. It is being held in Building 27 - (which is a hangar) - and apparently the man is still under custody.

(through a very pretty girl in Little Rock, daughter of an ex-Times man, Morrison, who is very friendly with an officer in the camp.)

4/16/54: BSRA Archive: “Gerald Light” visits Edwards

- 4/16/1954: Famous letter from BSRA’s “Gerald Light” to Layne about a **“first contact” event at Edwards AFB**
- This is right after Frank Scully’s then-*private unpublished* notes about Edwards AFB on 3/24/1954.
- Light claims Bishop James Francis McIntyre present at Edwards – yet another Vatican connection.
- Both the BSRA and the unpublished Scully archives converge around an event at Edwards AFB, around Nov. 1953-Apr. 1954
- No evidence I’m aware of that suggests Scully was in communication with BSRA/Layne/”Light”

June 4, 1954: Excerpts from Stringfield's CRIFO newsletter, sent to Scully. (Box #6 FF6.) “..told the US Gov. has captured discs”

INCIDENT 4: MANTLE OF MYSTERY SHROUDS MUROC (Edwards Air Force Base)

What is the Air Force concealing at Muroc? In a letter received from a source in California, I am told that the U.S. Government has captured discs. In the strictest secrecy these objects are being examined by the top "brains" of the country. In January when the lid of Air Force censorship was laid down, Frank Edwards announced that an "Object" was under examination in California. Edwards recently told me that the brass lid has been screwed down even tighter, that nobody is talking for the record, in fact, nobody's talking. However, this writer believes that if such discs are in captivity, it is understandable why the Air Force, in this instance, would prefer secrecy. Information regarding the disc's propulsion, metal and structure would be "sugar" in the hands of the Russians.

The Maury Island Incident: Background (FBI's 1947 "Security Matter X")

- On June 21, 1947, **3 days before Kenneth Arnold's famous formation sighting over Mt. Rainier**, witness Harold Dahl (1911-1982) was on his patrol boat near Maury Island WA (Tacoma area). His dog, son, and 2 crewman were on the boat.
- Claims to have spotted 6-9 very large "**doughnut-shaped**" craft.
- An object began spewing forth 1,000's of pieces of material resembling "lava rocks". Some fell onto their boat, killing his dog and injuring his son.
- As is typical in this very analog/Forcean space, the case was *supposedly* debunked and a "hoax" (hah!).
- Dahl's boss Fred Crisman gets involved. Crisman was an infamous "spooky" 20th century CIC/counterintel agent extraordinaire.
- Some materials sent to publisher/editor Ray Palmer (1910-1977) in Chicago area. Story involves MiB's. Dahl & family quickly fled in panic to Oregon.

April 18, 2017: WA State Senate Resolution #8648: “The FBI’s conclusions and Dahl’s secret were sealed for fifty years.” (See [here](#).)

SENATE RESOLUTION S648

By Senators Keiser, Nelson, Palumbo, Hunt, Zeiger, McCoy, Conway, Rivers, Miloscia, and Fain

WHEREAS, On June 21, 1947, Tacoma resident Harold Dahl and his son allegedly sighted six flying discs over Puget Sound near Vashon-Maury Island, an event now commonly known as "The Maury Island Incident"; and

WHEREAS, On June 22, 1947, Mr. Dahl alleges he was warned not to talk about what he saw by a man dressed in a black suit; and

WHEREAS, On June 24, 1947, pilot Kenneth Arnold alleges he saw nine unidentified flying objects ("UFO's") near Mt. Rainier; and

WHEREAS, These controversial sightings helped launch a pop culture phenomenon of UFO sightings across the United States during the summer of 1947, which became known as "The Summer of the Saucers"; and

WHEREAS, On August 8, 1947, two weeks after the Washington sightings, a UFO is alleged to have crashed outside Roswell, New Mexico, and this alleged crash has since become the most well-known alleged UFO incident in history; and

WHEREAS, On August 1, 1947, Army Air Corp Intelligence Officers Capt. William L. Davidson and 1st Lt. Frank M. Brown, who interviewed Harold Dahl about his sighting, lost their lives when the B-25 Bomber they were piloting crashed outside of Kelso, Washington; and

WHEREAS, Following the tragic deaths of Davidson and Brown, Harold Dahl publicly claimed his sighting at Maury Island was a hoax; and

WHEREAS, Special Agents of the Federal Bureau of Investigation conducted an investigation of the deaths of Davidson and Brown and ultimately concluded that Dahl did not recant his story but that his claim of hoax was itself a fabrication to avoid further public attention and ridicule; and

WHEREAS, The FBI's conclusions and Dahl's secret were sealed for fifty years; and

WHEREAS, The Maury Island Incident and its surrounding circumstances have made immeasurable contributions to Washington State's cultural heritage and to popular culture worldwide, including most recently the 2014 award-winning motion picture "The Maury Island Incident," and the 2015 web series "The Maury Island Incident," produced in conjunction with the Washington FilmWorks Innovation Lab and Motion Picture Competitiveness Program; and

WHEREAS, On April 1, 2017, the 3rd Annual Burien UFO Festival will be held in the newest hipster hangout of downtown Olde Burien with wide community participation and good humor; and

WHEREAS, On the seventieth anniversary of the seminal UFO sightings events, the Washington State sightings should be recognized for both their prominence and primacy in the modern era of UFO popular culture;

NOW, THEREFORE, BE IT RESOLVED, That the Washington State Senate pause to acknowledge the seventieth anniversary of the June 21, 1947, Maury Island Incident; the 1947 "Summer of the Saucers" popular culture phenomenon launched worldwide by these controversial events; and the first reference to the characters now popularly known as "men in black"; and

BE IT FURTHER RESOLVED, That the Washington State Senate recognize and honor the heroism and service of Army Air Corp Intelligence Officers Capt. William L. Davidson and 1st Lt. Frank M. Brown, who lost their lives following their investigation of the Maury Island Incident when their airplane crashed outside of Kelso, Washington, on August 1, 1947; and

BE IT FURTHER RESOLVED, That copies of this resolution be immediately transmitted by the Secretary of the Senate to the Air Force Historical Research Agency, to the Vashon-Maury Island Heritage Association, to the Des Moines Historical Society, to the Highline Historical Society, to the Burien Historical Society, to the Longview-Kelso Historical Society, and to the Washington State Historical Museum.

I, Hunter G. Goodman, Secretary of the Senate,
do hereby certify that this is a true and
correct copy of Senate Resolution 8648,
adopted by the Senate
April 18, 2017

HUNTER G. GOODMAN
Secretary of the Senate

Maury Island: A serious matter. Men died.

- Aug. 2, 1947: 2 members of Army Intelligence died after their plane burst into flames while carrying potential flying disc fragments retrieved from the Maury Island Incident.
- These "extremely heavy" and heat-exposed fragments were also being analyzed at Chicago University.
- Analysis of these materials was published by BSRA, announced in UK.
- See [here](#)

OGDEN CITY, UTAH, SUNDAY MORNING, AUGUST 3, 1947

Crashed Bomber Reported Carrying 'Flying Disc'

BOISE, Aug. 2 (AP)—Six pieces of what may have been a flying disc were being carried back to Hamilton Field, Calif., from Tacoma, Wash., in a B-25 bomber which crashed and burned near Kelso shortly after taking off from McChord field, it was learned tonight.

The pilot and copilot of the twin engined bomber were members of army intelligence, stationed at Hamilton Field, and had been assigned to investigation of the flying disc mystery.

They were Capt. William L. Davidson and Lt. Frank M. Brown, and both were instantly killed when their bomber plummeted to earth after the left engine burst into flames.

That they were carrying with them six pieces of a metal or lava substance was made known by Capt. E. J. Smith of United Airlines, who was in Tacoma with Kenneth Arnold of Boise.

Davidson and Brown had gone to Tacoma in response to a message from Arnold, who had told them he "might have something interesting to show them," according to Brig. Gen. Ned Schramm of fourth air force at Hamilton.

Smith, who on July 4 reported seeing nine flying discs while his airliner was roaring over southern Idaho, said that he and Arnold had given the six pieces of metal or lava to Davidson and Brown shortly before they took off from McChord field about two a.m. Friday for Hamilton Field.

Smith said the pieces of metal or lava were "extremely heavy" and when he and Arnold obtained them, showed evidences of having been subjected to extreme heat.

Arnold had gone to Tacoma earlier this week to investigate a story told by Harold Dahl and Fred L. Crisman of Tacoma, who operate a concern known as Tacoma Harbor Patrol, according to Arnold.

Dahl and Crisman, according to Arnold, said that their boat was struck by portions of what had appeared to be a flying disc "in trouble" and they had recovered portions of the metal.

Smith, telling his story to the Idaho Statesman by telephone from Tacoma, had gone to Tacoma to join Arnold in the latter's check of the Dahl-Crisman story.

(Continued on Page Two-A
(Column Three)

Late 40's: Accomplished sci-fi authors were in close communication with BSRA/Layne

- A confidential 1947 Letter to BSRA director Meade Layne, found in BSRA archive: **Roger P. Graham** (pen name “**Rog Phillips**”) about the Maury Island Incident
 - AFU Filename: "Meade Layne\Meade Layne, Roger P. Graham correspondence\470828 Letter from Roger P Graham to Meade Layne.pdf"
- Some retrieved materials sent to Ray Palmer from Tacoma. Later said to be confiscated from him.
- Graham: **Maury Island craft used an atomic powerplant, radioactive blocks of metal purified and ejected**
- **Hey - this matches info in Majestic Documents.**
- How did Graham know? How did the author(s) of the much later Majestic Docs know?

~~TOP SECRET~~

ROGER P. GRAHAM

305 STUDIO BLDG.
1713 SHERMAN AVENUE
EVANSTON, ILLINOIS

August 28, 1947

Dear Meade,

Your card just arrived. Guess you're right about copyright. Only trying will tell whether idea is good. At least you can't lose on it. What is your present circulation and how much of an increase could you stand? Unlimited?

Will see Ray tomorrow and remind him again to send you material.

Do not quite understand what you mean by "worked out on levels above the etheric". I thought that in the conventional sense etheric was the highest level, so to speak, with astral and physical considered below it. I gather, though, that what Rusty meant was that the flying saucers are constructions from the realms of highest development. The ethereans of Oahspe, or the arch angelic hosts.

The idea of Russian origin is absurd, but not impossible. I would say it is ALMOST impossible, though, and that we may ASSUME with confidence that they have not discovered the principle of flight involved, nor developed the technique and the metals.

I'll give you some of my reasoning to date on them. Keep it in your files, but don't pass it around for the present. Two reasons. One: if what I think is going on IS going on, it might not be safe. Two: if I am wrong on what I think is going on I may be able to make a fortune on it eventually, if I am right on the principles.

Take the material dumped at Tacoma. A senseless mixture with no practical use. A mixture that does not occur in nature. Let's picture the atom power plant of the future. In it there is a process of disintegration going on which produces two things, - power, and non-radioactive elements which eventually form a drag on the radio-active process. Every so often the blocks of radio-actives in the power plant would have to be processed and the dross taken out. Depending on the type of radio-actives in the plant, the waste materials would take somewhat the constituency and form of the stuff dumped. Also the same general appearance. It would be gotten by melting the radioactive blocks of metal and purifying them. It would not be radioactive in an efficient system of purification. I feel sure, myself, that that is the source of that stuff.

Why was it dumped where it was? A poor shot. Ordinarily when such a ship is in the atmosphere it would dump the stuff in the ocean or some body of water. Tacoma is on Puget Sound, and it seems fairly certain that the stuff was AIMED for the open water.

Now for the drive principle. (1) Like electrical charges repel each other. (2) A hot plate with a high electrostatic potential is a strong ionizer. A neutral atom striking such a plate would have at least one of its electrons stripped from it if the charge were positive. The electron would be drawn into the hot plate and thence through the machine that maintains the high charge on the plate. The ION would be REPULLED by the plate due to LIKE charges, - thus causing a THRUST against the plate.

-2-

On the other "side" of the electrostatic machine would be a similar plate with an equally high negative charge. Made of some material with high electronic radiative properties such as that that filaments in radio tubes are made, and also heated to the right temperature, it would shoot off the electrons which would repell the ship as soon as they broke free, producing another drive plate.

The drive produced from the positively charged plate would be the greatest, because it would be repelling ions of matter instead of low mass electrons. Nevertheless, under a perfected setup BOTH plates would produce a strong drive.

The charge that would effect this result would be in the millions of electrostatic volts. The plates holding the charge would have to be insulated and far enough apart to prevent arcing. They would also have to have a large enough area to produce powerful thrusts.

One charged plate could be on the bottom of the ship, - perhaps the entire bottom. The other could be a narrow section of ring about the circumference. Several such ring sections could be used, and the charge placed in the ones in the stern, being switched to others in the circumference to change direction of travel.

The charge could be reversed. Thus, if the ship wished to gain speed the positive charge could be in the circumferential rings. When lift was required the positive charge could be placed in the bottom plates.

Now then, when such a ship leaves the atmosphere it encounters mostly hydrogen in the upper stratosphere. With sufficient charge on the plates it could separate the electron and the proton at each plate, shooting out protons from the positive plate and electrons from the negative plate. In space there would still be sufficient atoms drifting to produce an effective drive.

In a rocket, the recoil mass is carried with the ship and shot out through the rocket tube. In a ship with the drive principle described above no recoil mass would need to be carried by the ship. It would utilize the material it encountered in its passage, even in interstellar and interplanetary space. Where it would need the greatest supply of material around it would be in strong gravity fields near planets, where the greatest density of such material exists.

If such a ship were to land on the Earth it could not take off unless it landed on a high, towerlike structure with plenty of insulation between it and the ground and plenty of air to form the material for the first lift. If it DID land on the Earth the bottom plate could not hold a charge. The charge would dissipate into the ground. If it were too near the ground the charge would arc across the gap to the ground and cause the ship to fall. Therefore such ships would have to stay up if they did come. Even if they were friendly they would not dare to land because they would be grounded permanently. They might send individuals down by parachute, with the hope that they could get planes to go up in the air again and land on the top side of the ship. They might even carry jet powered or propeller driven ships for the purpose of visiting on the surface. They probably would. There might even be such individuals on the surface right now, investigating!

Where are they from, and what do they plan? There we come again to the part I don't care to discuss yet. I may put it into a story this fall. I don't think it will "break" and spoil the fiction effect of the story for a year or two yet, at least. And, of course, I may be entirely wrong.

Keep all this under your hat for the time being, Meade. I plan on performing an experiment soon to measure the drive thrust of the setup I described,

-3-

s. that I can determine the mathematics of the thing.

What I'll do is paste a sheet of metal foil on one side of a sheet of some insulating material with heating wires imbedded to raise the temperature of the thin metal sheet up to the glowing point. That will take a little planning on types of materials. Then I will charge the plate at various electrostatic voltages and, with the plate resting on a frame that rests on a scale, I'll measure the lifting force produced for various voltages of charge. From that I can form equations for area and charge, and rough estimates for materials and temperatures, so that I can determine whether enough drive and lift force could be produced to run a ship such as a flying saucer of large diameter. Then I should know. If the experiment gives VERY favorable results, it might be possible to build flying ships using that principle, small enough to be used commercially. Hence, the patents on that would be worth a fortune. So if it got around at present someone might get ahead of me on it.

Also I think that principle is the ONLY one upon which a successful space ship could be made. Rocket ships will never be any good. Even with atom explosions they would need most of their weight for propulsion to get away from the Earth. If my guess is right on the amount of drive this setup would produce, it would take no more power in the power plant to go to Mars or Venus than it now takes a B29 to cross the ocean!

What do Lingford and Lo Su n Yat have to say about me lately? I am always very curious about me, as you know. If it's flattery, fine. But if it's dire prophecy or sharp criticism, I'm VERY interested. I often think I will find out more about myself from my enemies than my friends. Friends get into the habit of hiding anything not flattering.

By the way, I sorted my RRs and FRs the other day. I would like to get my collection complete if possible. I lack ALL of volume one of RR, and my oldest copy of FR is the Sept. 1946 number. Do you have them, or any part of them? Will pay any reasonable price above the original price to get them.

Roger

ROGER P. GRAHAM

305 STUDIO BLDG.

1713 SHERMAN AVENUE

EVANSTON, ILLINOIS

Sept. 6, 1947

Dear Meade,

Got your telegram last night after getting home from the Chicago office. Ray was with me, so we discussed what to do.

Ray has accumulated a mass of evidence that consists of accounts sworn to before notaries and signed by several witnesses in most cases. Also Arnold's sworn statement, plus some of the material at Tacoma, plus a spectroscopic analysis of it, plus notarized opinions of experts about that stuff. In addition he has photographs much better than any that have appeared in print, with sworn statements about them, of the flying saucers.

It is going to be published in a magazine that has no connection with Ziff-Davis, but we are having trouble finding a printer so far. So the date it will appear is not certain yet.

Ray plans on sending you some of the sworn statements for your files as soon as he gets through with them. In that way they will not all be in one basket. The F.B.I. has their eye on him, and if they knew of the plans we have they would stop them, because the saucers are squelched now in the news.

They exist and the government knows they exist, but doesn't want that known to the public.

So, after talking all this over, we thought the best you could do right now is announce that in the near future complete proof of the existence of the things will appear on the magazine stands throughout the country, and when it does you will announce the name of the publication in RR. But don't mention the name Ray Palmer in connection with it in print because the F.B.I. has been to see him already and would get tough and demand to see the originals and probably seize them, if they got definite evidence of their existence.

What he hands out on the editorial page of Amazing Stories is passed off by the FBI as so much hogwash ballyhoo dished out to the readers, so is not proof like it would be if you seriously announced that Ray had the evidence he has.

I thought of sending you a telegram in reply, but see that this will probably reach you Monday or Tuesday, and be in time for your deadline, and give you a better idea of what you should say.

Got a letter from Jack Tate this week. He made connections with Modglin Co. Plastics. That is a big company and he will probably find it good to stick with, and may wind up on the west coast by spring.

Roger

See Majestic 12 5th Annual Report, Annex C, Page 14: Maury Island "celestial [sic] fragments containing metal from a nuclear reactor from a UFO"

6. The death of two Air Force counterintelligence officers in the crash of their B-25 aircraft enroute to Hamilton AFB, California, after interviewing two auxiliary CO men who reported six UFOs over Maury Island, Washington, in June 1947. CIC agent Crisman had spoken to Kenneth Arnold, who on 26 June 1947, had reported a flight of UFOs over Mt. Rainier, Washington, and filed his report after he had spoken to Captain Davidson and Lieutenant Brown. The material given to Davidson and Brown was believed to come from Maury Island and may be celestial fragments containing metal from a nuclear reactor from a UFO. Fragments were turned over to CIA agent Shaw, and Crisman was ordered to the Alaskan ADC for assignment in Project IVY.

Maury Island Incident Realizations

- *Crisman (CIC - counterintelligence) was likely covertly and forcefully inserted into the picture to contain a serious situation.*
- **Something very big happened days before Kenneth Arnold's sighting.** They likely inserted Crisman as Dahl's new "boss". **Invented lore** flows from there. (This includes the *Project Sign* report, based off the invented lore.)
- The probability that Fred Crisman (CIC - counterintel) was actually *originally* witness Harold Dahl's "boss" is quite low IMO.
- They likely threatened Dahl to go with the **invented Crisman narrative** to help **contain the situation**, hence the MiB and phone/room tapping of Arnold.
- Crisman was then assigned to "Alaska" to work on classified h-bomb testing program security related matters ("Project IVY", which existed).

More Corroboration (7/20/2024)

- 4/28/1949: USAF Dir. of Intelligence Gen. Charles Cabell: reports of “**atomic powered craft of unusual design**” forwarded to AEC (Atomic Energy Commission).
- Also see <https://x.com/528vibes/status/1814087329344348467>.

13. Date: [4/28/1949 #7283](#)

Location: Joint Intelligence Committee

Description: USAF Director of Intelligence [Charles Cabell](#) sends a report on “Unidentified Aerial Objects” to the Joint Intelligence Committee. It summarizes the history of Project Sign up to its redesignation as Grudge and adds an appendix on “Unidentified Aerial Objects: Fact and Discussion,” which is basically a short version of the sanitized February 11 Sign report, with some green fireball information added. It recommends sending reports of unidentified “light phenomena” to the scientific community and reports of “atomic powered craft of unusual design” to the AEC. It concludes that “There are numerous reports from reliable and competent observers for which a conclusive explanation has not been made” and that some “involve configurations and described performance which might conceivably represent an advanced aerodynamical development. A few unexplained incidents surpass these limits of credulity. It is unlikely that a foreign power would expose a superior aerial weapon by a prolonged ineffectual penetration of the United States.” This essentially resurrects the ETH as a possibility, without clearly stating it.

11. Conclusion – We Must Recover Our History

- Real radar and UFO/UAP history has been suppressed, classified, and now forgotten.
- **We’re living in a state of mass amnesia over UAP/UFO events.**
- **ufology’s demise has been greatly exaggerated.**
- New UAP related newspaper data is being unstoppably digitized.
- Many 1,000’s of pages of **local newspaper archives are coming online every month.** (They couldn’t censor them all!)
- AI is a total game changer for this sort of work.
- New software tools and apps can push forward our understanding of what actually happened.
- Frank Scully would have said this: UAP’s are “**divine intervention**”.

3. 1940's-1950's Congressional Record Hits

1947: “Flying Disks” and “Saucers” Hits in the Congressional Record

- July 9, 1947 - on **the day after Roswell**, Senator Taylor (either Glen H. or Dean P. - I can't tell) said:

"Mr. President, the so-called **flying disks or saucers, which have been so extensively reported during the past fortnight, could serve as a warning** of what is in store for the peoples, not only of our own Nation but of every country on this little globe we call Earth. **If these contrivances, flying at the terrific speeds which have been reported, are proven a reality,** they will simply demonstrate once again how small this world has become, **how open it is to attack by as yet unknown and undemonstrated weapons.**" (See [here](#))

Mr. President, the so-called **flying disks** or saucers which have been so extensively reported during the past fortnight should serve as a warning of what is in store for the peoples, not only of our own Nation but of every country on this little globe we call Earth. If these contrivances, flying at the terrific speeds which have been reported, are proven a reality, they will simply demonstrate once again how small this world has become, how open it is to attack by as yet unknown and undemonstrated weapons.

On the other hand, if it should be decided, after careful investigation, that this whole fantastic episode is the result of overwrought nerves, it will be a warning of future and more frequently occurring demonstrations of mass hysteria. As the tension increases in this age of uncertainty, life will become a nightmare haunted by fears and dangers—real and imaginary.

No amount or degree of military preparedness will avail us against such psychological fears and anxieties.

1951 (Korean War): Another “Flying Disk” Hit in the Congressional Record

- 1951, 82nd Congress: Another Senate mention, by a Mr. O'Mahoney (D), while talking about Research and Development programs and the USSR:

“What I have just picked up is almost a flying disk. It is a new carrier for gasoline. It is made of synthetic rubber. It carries about five gallons of gasoline. It is now in use.” (See [here](#))

Members of the Senate will be interested, however, in looking at some of the objects on the desk before me. What I have just picked up is almost a flying disk. It is a new carrier for gasoline. It is made of synthetic rubber. It carries about five gallons of gasoline. It is now in use. It can be dropped to a tank or to any other vehicle using gasoline or other fuel, and it has been dropped from heights of from 200 to, I believe, 1,000 feet.

Beware: Modern Book Reprintings Can't be Trusted

- Left: Kenneth Arnold's original book (1952)
- Right: A modern reprinting
- Noticed a ~1952 advertisement in Scully's archive talking about **censored “dailies” in July 1947.**
- **Kindle version and modern reprintings don’t have hits for the word “dailies” – what?**
- Kindle books can be total messes: untrustworthy

Dear Friend:

The photos in this folder are being sent to you for but one purpose--to prove to you that there is such a thing as a flying saucer.... and as a personal and private note from Kenneth Arnold and myself that we've published a book (available only through ourselves and not in bookstores) which is intended to cut through the smokescreen of misinformation, secrecy, censorship, false reports and biased analyses.

After four years of official and public ridicule, accusations of trickery, hallucinations and imagination, we've finally been justified by more recent events--but that isn't enough: the truth hasn't been presented yet! So, we've put that truth in book form, in an effort to set the matter straight.

The book contains 192 pages, and 46 photos, 32 of them of flying saucers. No other book has dared to be that specific. The proof is there, right before your eyes. It tells the facts about the tragic Tacoma Incident, which sent two high Air Force Intelligence Officers to their deaths. It analyzes the Project Saucer Report. It reports American and Foreign sightings, tabulating factual data in chronological order. It gives the first comprehensive history of flying saucers for 1000 years. (Yes, they were seen that far back!) It is handsomely cloth-bound, stamped in gold.

This is the only book which hasn't been successfully challenged; the only book in which speculative claims do not appear as fact. No lies, no trickery, no cheap publicity. As a matter of fact, we aren't going to make any money on it, because we refuse to commercialize it. That's why you can't get it in a bookstore.

With us it's a point of honor, and a recognized duty to tell the American people the truth!

Kenneth Arnold & Ray Palmer
Rt 2, Box 36
Amherst, Wisconsin

Above, the historic saucer which caused the censorship on July 10, 1947 halting its publication in all the nation's dailies just when the public was demanding proof of flying saucers. It was taken by William A. Rhodes, 4333 N. 14th St., Phoenix, Arizona.

Carl Hart, Jr., Lubbock, Texas, took these two photos of formations of flying saucers on August 30, 1951. Says the U.S. Air Force Intelligence team, now admitted to be continuing its flying saucer investigations in earnest: "These photos are legitimate." In one photo a larger "mother ship" can be seen off to one side, apparently controlling the mass flight.

Below, first foreign flying saucer picture, was taken by Newsreel cameraman Enrique Hausemann Muller, in Spain, April 24, 1950. The object was described as being very luminous, of very huge size, and spun across the heavens with a rotating motion, giving off streamers or rays of flame like a fireworks pinwheel. Yet it seemed to be intelligently guided.

Above, the historic saucer which caused the censorship on July 10, 1947 halting its publication in all the nation's dailies just when the public was demanding proof of flying saucers. It was taken by William A. Rhodes, 4333 N. 14th St., Phoenix, Arizona.

At least one witness saw UAP's in both centuries: 1890+1947

- Witness John Caldwell saw UAP's in both 1890 and 1947
- Reported both events to the *Austin Statesmen*, 1890 clipping provided
- 1947 report was on July 8, 1947 – same day as Roswell (interesting!)
- Reports like this demonstrate that **the phenomenon is not unique to the 20th century**
- **Many 1896/1897 sightings are just too similar to 20th century reports to ignore IMO**
- See [here](#) and [here](#)
- *Austin American-Statesman*, Tue., Jul. 8, 1947, Page 1

NOW HE SEES IT, NOW HE DOESN'T

'Saucer' Recalls Event 57 Years Ago When Austinite Saw First 'Aircraft'

John Caldwell of Reed's Music Store saw a flying disc Monday going north from the University of Texas, but he doesn't believe it. It happens that 57 years ago, before airplanes were invented, he saw a mysterious aircraft going north from behind Mount Bonnell.

Although he has a clipping, yellow with age, from The Austin Statesman to prove his point of seeing the plane, he said Tuesday he thought both instances were illusions.

"Just think about anything long enough," he said, "and you can see it."

At the time Caldwell saw the mysterious plane, the United States was in about as much turmoil over their strange appear-

ances as it is now over the appearances of flying discs.

"I think I was just seeing things yesterday," Caldwell stated, "but if people start thinking hard enough on a thing, its bound to be invented. Someone will get the idea about to make whatever is in the

public eye."

The disc he saw Monday was white, "or near the color of the moon but not near as big." It was traveling at a rapid speed, but Caldwell could not estimate how fast it was.

"I was lying on my bed at home," he related, "but I wasn't drunk, because I don't drink, and I wasn't asleep. I had just been thinking about the things too long like I did about the airplane when I was a boy."

The clipping from The Austin Statesman that Caldwell has pasted in the back of a small, leather-bound ledger reads in part:

"The airship made its appearance again early yesterday morn- (Continued on Page 5, Col. 4.)

Disc Jag Has Americans Reeling

By Associated Press

America's "flying saucer" jag reeled on Tuesday. Stiff necks and goggle eyes were the order of the day. Sky watching was a new

Thomas Edison was Inspired by the 1896/1897 “Mystery Airship” Sightings

- Right: *The Kansas City Gazette*, Apr. 29, 1897, Page 3
- Edison thought the sightings were fakes, but he then proceeded to predict airships, “will not be on the balloon idea”, “made of a very light material”, “raised by means of a powerful motor”
- **Edison nailed it:** The Wright Brothers’s first flight: 12/17/1903
- See [here](#)

BSRA Archive

- The BSRA archive is located at the huge AFU (***Archives for the Unexplained***) in Sweden
- A timely donation resulted in access to their *internal files*.
- Scanned by AFU workers and researchers.
- Contains letters, articles, notes, pubs, etc. dating from mid 1940's-late 1990's. Many internal, then-private letters and notes to/from **Meade Layne and his “associates”**. Incredible information; still parsing it.

BSRA Reported about Crash Retrievals

- They had “informants” around 1949. (Many blabbing around this time.)
- See Berlitz and Moore’s *The Roswell Incident* (1980), page 103.
 - Berlitz (1914-2003): Yale, linguist, US Army intel (13 years), founded the *Berlitz Language Schools*
 - See [here](#)

Meade Layne, now deceased, former director of Borderland Sciences Research Foundation, Vista, California, made some memos, probably in 1949, concerning reports on some of the alleged participants in this scientific “call-up.” A memo has been furnished by Mr. Reilly Crabb, present director of Borderland Sciences Research Foundation.

Layne’s memo states that “on the basis of present information” he accepted the facts of the story as authentic. Of his sources, he said that his “most direct information involves three informants, two of whom are scientists of distinction, and the third a business man of high standing.

One of the scientists, a Dr. Weisberg, a physics professor from a California university, saw the disc himself and took part in the examination of it. He says the disc was shaped like a turtle’s back, with a cabin space some fifteen feet in diameter. The bodies of six occupants were seared . . . and the interior of

#2 Meade

April 16, 54

I am now preparing Bulletin #2 for mailing about Monday. I will add my testimony of the Muroc episode, for whatever it may be worth, and then go into some length about the next big move of the Commies to take advantage of the present public concern about the bomb.

My information is that a vigorous campaign will be started immediately to persuade America that Communist domination is much better than total annihilation. This will emanate from various groups of intellectuals who certainly have a case to present.

April 12

Already in TIME there is this: "In a letter to the N.Y.Times, Author-Critic Lewis Mumford wrote: Submission to Communist totalitarianism would still be far wiser than the final destruction of civilization.....Let us cease all further experiments with even more horrifying weapons of destruction, lest our own self-induced fears further upset our mental balance.....Let us deal with our own massive sins and errors... and have the courage to speak up.....against the methodology of barbarism to which we are now committed. If as a nation we have become mad, it is time for the world to take note of that madness....."

The purpose behind this campaign is something I was warned about nearly 20 years ago. Its particular intent, among other things, is to split the country into as many warring sections as possible. There is, of course, the ancient prophecy of America becoming a land of four separate nations or peoples. These have sometimes, rather simply, been itemized as a north, south, east and west division. And anyone with an ounce of ingenuity can easily fan local differences into a terrible hate.

Then there is the apparent treason of Oppenheimer, and some others. In the next Bulletin I will try to influence as many as possible to dig deeply under the superficial evidence for the real truth---and perhaps this man, and his friends, may not be martyred as others have already been. My Instructors assure me that this man is not a Commie, nor even a sympathizer. But overwhelmed with the monster which he had helped to create, he believed that if Russia also had the science to make the bomb it might yet be possible to save civilization, even mankind.

This is a time for a display of that Christian idealism about which we are so proud, lest the jungle consciousness in each of us destroys every vestige of ^{our} sanity ~~sanity~~ ~~xxxxxx~~

I am working against a deadline to have another pamphlet on Etheria to serve as a companion book to Sing-Skies, when the news breaks next month and mob hysteria follows its traditional course.

This is just a hasty roundup of the matter as it stands now, and I will keep in touch with you for further co-operation. Will you please send me your phone number? It has vanished from my files in the confusion around here.

Cordially and fraternally,

B.J.

Another Example Whistleblower: *Disclosure Project* Witness Bill Uhouse

- Claim: “I spent 10 years in the Marine Corps, and 4 years working with the Air Force as a civilian doing experimental testing on aircraft since my Marine Corps days.”
- **He did serve:** See *The Evening Times*, Sayre, PA, Mon., Mar. 30, 1953, Page 3
 - [here](#)
- Claimed to have worked on a UAP craft simulator based on the craft retrieved from the 1953 Kingman AZ C/R.

<https://ufo-search.com/>

- Free, no-frills, but no BS, UFO/UAP related research tools:
 - An open source **client-side search engine** for the `ufo_data` repository
 - The `ufo_data` repository data, organized into a single huge timeline with a KWIC (“Key Words in Context”) index
- **Searches are never sent to a server:** your browser downloads the `ufo_data` database and all searches are locally conducted 100% in your browser using WebAssembly. (So all searches 100% private.)
- KWIC indices, now old fashioned, are extremely useful for this sort of research (***what if you don't even know what to search for?***)
- Bonus: **All articles from every *Crash Retrieval Conference* proceedings**, with a KWIC index and clickable Table of Contents (which links to the scanned articles on archive.org).

8. *UFO Glasnost* by Col. Dr. Marina Popowitsch – Translated to English with OpenAI

- **Col. Dr. Marina Popowitsch (Popovich):** Famous Soviet test pilot, trained as cosmonaut. **A connected, well-known Soviet aerospace insider.**
- Book translated from German using OpenAI 1 or 2 pages at a time.
- Incredible book that **corroborates many of the things being claimed today by Grusch and others, except from a Soviet perspective.**
- Dr. Donald H. Menzel's (20th century debunker, elite high security insider, rumored MJ-12) book *Flying Saucers* misled the Soviets for years. **Dr. Felix Ziegel, the Soviet UFO expert, saw through Menzel's ruse by the late 60's.**
- **Soviets started tracking UFO's on radar starting in ~1947 (Ziegel)**
- Soviets investigated UFO landing sites: **found strong temporal anomalies**
- **Many Soviet pilots were injured in UAP encounters**
- **The Soviets claimed through Popowitsch to having UAP materials ("fragments") shortly before the Soviet Union fell in 1991**

“largest U.S. nuclear contamination accident”

Luder Valley: Secret High-Tech Aircraft Deployed Years Before the Public Knew

- **Helicopters used by American and German secret agents:**
“..experimental jobs, hard to handle and not over-powerful, but indispensable for their work”
- **Were secretly deployed for special operations forces in 1938, “and it wasn't in the newspapers”.**

*A lot of you fellows are going to kick about these helicopters being in use by German and American secret agents before they are in use by the army of either. But I myself saw practical heli flights in Newfoundland in '38. I think the ships have been in use by the services of both countries: experimental jobs, hard to handle and not over-powerful, but indispensable for their work. It is the only way I can explain what I saw myself—and it wasn't in the newspapers. Naturally, the only conclusion to be reached is that the secret services got the helicopter on the Q T before anyone else. One can see why this was so.—Author.

Edwards AFB 1954: Dozens of leaks. Too many to list.

Eisenhower Feb/April 1954 Edwards AFB Meeting Notes/Leads

1. Don Phillips (mil background verified)

"Mr. Phillips further states that there are records and filmed documentation of meetings in California in 1954 between ETs and leaders of the USA."
<https://pastebin.com/xFuA5ZQv>

2. Navy Commander Charles L. Suggs (mil background verified) - as told by his son Marine Sgt. Charles L. Suggs (mil background verified)

3. Hank (Gert) Krastman (mil background+NATO statements verified) - saw Einstein and Paperclip Germans at Edwards
The Unexplained magazine Vol. 4, No. 2, 1993

4. Henry W. McElroy, Jr. video - he actually got the info from ex-CIA "Agent Kewper" aka Oscar W. Wolff ("oldest son" or "son in law" extended family connection)

5. Gerald Light (unverified - BSRA/BSRF) - his 2 page letter, also his Lodge of Light publication about him going on a desert retreat.

6. Meade Layne's claiming he had corroboration of Light's account on a letter in BSRA archives/AFU

7. BSRA archive letter from McGraw Hill dude, wrote letter to Edwards base commander

8. Scan of BSRA envelope containing addresses, from BSRA archives/AFU (on Medium now)

9. Franklin S. Allen - was real guy. Have built his ancestry.com tree and he was living in LA area at the right time.

<https://twitter.com/richgel999/status/1556791420547211269>

10. Earl of Clancarty, a member of Great Britain's House of Lords, who repeated the testimony of a air force plot in the 90's about the meeting, the shutdown of the base, etc.

11. Desmond Leslie, and Mrs. Scully also reported on the meeting:

https://archive.org/details/charles-berlitz-william-l.-moore-the-roswell-incident-1980_202012/page/n87/mode/2up?q=%2210545+Scenario+Lane%22
Valor Magazine Oct 9, 1954

12. Cardinal McIntyre - Vatican SIV connection:

"Among others in attendance at that meeting was James Francis McIntyre, the Cardinal Archbishop of Los Angeles. Two days later, Cardinal McIntyre traveled to Rome and met with Pope Pius XII. The result of this meeting and the revelations the Cardinal imparted to the Holy Father, the Servizio Informazioni del Vaticano was formed."

<https://forum.rpg.net/index.php?threads/the-omega-secret-vatican-ufo-conspiracy.301627/>

A more complex account is in various books (use Google books).

13. Giant Rock meeting. Air Force Intelligence was invited, right before event.

<https://twitter.com/richgel999/status/1556101122808504321>

14. Phillip J Corso (mil background verified)

Spoke of the Eisenhower meeting (and a "surrender") in his book "The Day After Roswell" and his personal manuscript.

1/24/1954 Scully's Raw Notes (Box #5 FF6)

This individual was one of three from one of the major industries of the country (railroad), having been screened and ascertained as to other his loyalty to the country and passed ~~xx~~/security risks which was deemed by the authorities as necessary. The industrial group, of which this man was a member was made up of various major industries who meet periodically to discuss problems that are currently confronting the country. The latter part of November he talked to the chairman of the group and asked him ^{what} the subject would be for discussion. The proposed ~~xx~~ meeting was to occur in the early part of December. The chairman stated the subject would be unidentified aerial objects, née flying saucers. The chairman was then asked if this subject was important enough and if there was enough information on it to warrant such a discussion.

1/24/1954 Scully's Raw Notes (Box #5 FF6)

The chairman's reply was "Yes, there's a great deal on it and its very important, that the government has in custody several beings from off a saucer and what to do with them was a great problem. The chairman was then asked "Where is the meeting to be held?" The answer was "I'm not sure, but I believe Muroc Dry Lake." A meeting subsequently was held, but not there.

Original story as we heard it was that a metallurgist had been called to Muroc to examine one of these unidentified aerial object, née saucer. The subsequent information received by the writer was to the effect that there was not only a saucer in custody but also a being off the saucer who was of less than average, or small, size earth being. He spoke English and when being questioned as to the origin from which he came was very reluctant to tell. That finally a map of the heavens was placed in front of him and he pointed to the planet Mars. That he was very concerned and disturbed at being in custody. Doctors had been called in to examine him. The resemblance was similar to human beings as we are familiar with them on this planet, with the exception that they could find no heart.

(When Beam asked Wheeler what he had to prove he was not like us he answered. Our circulation system is differ^{ent} to yours on earth, more like a tree and plantlife, it is cellular, rather than corpuscular. Beam asked if he should cut off a piece to find out. Wheeler leaned over and made a gash in his finger, which was supposed to be evidence . . . and then some people came and we heard no more.)

May 20, 1954: “..pulverized 30 diamond drills without any effect whatsoever.” (Unpublished)

May 20, 1954

One CIO officers has told Mr. May (Major) that they have in trying to see what kind of material saucers were made of pulverized 30 diamond drills without any effect whatsoever. This was about three weeks ago he got this information, but it could have happened a long time ago.

Mr. May got interested in saucers when he lived in Idaho, in fact very near Maury Island during those events there. Has been to George Van Tassel's place several times, but got cold feet and didn't go for the convention. Feels he is still sitting on the fence, doesn't know whether saucers are or aren't. (But I believe he's kidding somebody, maybe himself.)

He believes saucerians come from different planets, that they are mostly good, or friendly. There are also some unfriendly ones surveying us from space, but they are on the other hand observed by other planetarians who are watching us, so it is a merry political cycle.

He definitely believes in astro ? Going out of one's own body and being able to observe oneself. It happened in a dream he once had at Giant Rock when he was sleeping in his station wagon. On talking it over with Van Tassel, and making it clear he didn't go anywhere, just wasn't in his body in that he could view his body from the outside, Van suggested that was saucerian trying to see if he could be a good contact and that it was definite a step to contact. He later had a few more of those experiences, and found his wife had one many years ago.

Feels there is tremendous things tied up with religion, but doesn't believe it is a thing to talk about in public meetings. We discussed more on that point, and he said Van had mentioned it on TV, and I said yes, but he later had expressed the opinion

32. Date: [12/15/1981 #44105](#)
Description: In San Luis del Palmar, Corrientes Province, Argentina at 3:30 a.m. 42-year-old Ruben Meneses was driving a dump truck on a dirt road at 3:30 a.m when he had a close encounter with a brilliant object that approached his truck. The truck began to vibrate, and he felt a tingling sensation all over his body. He was unable to move as the truck was lifted up into the air and seemed to become transparent. Meneses then blacked out. He later awoke sitting confused in his truck at a location about 55 miles from where he had been, and did not remember how he got there. He was hospitalized in a state of confusion, shock, and disorientation. When he awoke he also had a vague memory of a humanoid encounter. Later under hypnotic regression he remembered being taken inside a room with mirror like walls, where he was made to lie down on a cot-like bed. He saw three short thin humanoids with dark gray skin, extremely long arms and thick wrinkles on their foreheads. The little beings communicated with Meneses using telepathy.

LUDER VALLEY

I heard the whir of propellers and looked up . . .

98

By
**RICHARD
S. SHAVER**

**There in the green
hell of South America
lay the wreck of a ship
from an unknown world in space**

THE chief's face was red, and the odor of cigar smoke, the kind that only grows in Havanna, drifted in gray ribbons across the room and in front of his red face. His big teeth were champing the butt, as usual

"The name of the place is Luder, Steve—Luder Valley. It's the scene of the biggest gold strike in years—and it's in the worst jungle on the Southern continent. Even a condor carries a pack in that country—and skid chains. There is no way in except for a mountain goat or a monkey—so they use mules; they don't know any better than to go ahead, anyway. The snakes are bad, and you better take three kinds of serum along. Along with the gold occurs a good diamond clay, and lots of stones of good quality, for industrial uses. The Germans have sent in agents in a helicopter to buy those industrial diamonds and fly them out to a sub—the Germans are desperate for industrial diamonds. We've got to get in there and stop them. You're to be advance man. Get in, get the info, and make ready for the arrival of the rest of us. And don't get recognized for an agent before we get there—just smell out the lay of the land."

Pug, the chief's beauteous daughter, came in with a big bouquet of rainbow-hued flowers that smelled like heaven. Hell of a name for a girl, isn't it? But she had the cutest pug nose I ever saw on human and someone had hung the name Pug on her and it stuck.

She was always coming in with something when I was around. But I wasn't having any. Pug was too much like her old man for a man to marry. I didn't take to the idea of being bossed around off duty, too. But that beautiful pug nose of hers, above a smile as gay and welcome as the Pearly Gates, if heaven is what they say it is—was hard to be rude to. So I said, "Good afternoon, Pug Ranscom."

She answered, "Good afternoon, Steve. Leaving so soon?"

"Yeah, I got my sailing orders—and my mule ticket, too. Don't you wish you were going along?"

"Maybe I will. Somebody will have to keep you out of trouble." Her eyes had a stubborn glint, and I knew she meant business, from the similar look her old man sometimes had when nothing would stop him.

"Now look here, Pug, you keep out of this. No more of that—I'll tell your
